

CALL FOR SPECIAL INVITED SESSION PROPOSALS

As with previous years the NASA/ESA Conference on Adaptive Hardware and Systems (AHS 2008) technical program will include special (invited) sessions. The objective is to complement the regular program with new or emerging topics of particular interest to the Adaptive and Evolvable Hardware and Systems community that may also cut across and beyond disciplines traditionally represented by the theme of the program. Example Special sessions might be Adaptive wireless for space and telecommunications, Future and emerging technologies, Nano electronics, Reconfigurable computing architectures, Adaptive antennas, Secure data and information systems, High performance reconfigurable computing, Distributed systems and networks.

Prospective organisers of Special sessions should submit proposals indicating:

- Title of the session
- Rationale of the need for the special session at AHS 2008. The rationale should stress the novelty of the topic and its multidisciplinary flavour (if any)
- Short biography of the organisers
- List of contributed papers (including titles, authors, contact information of the corresponding authors, and a short abstract of each contribution). Organisers should not contribute more than one paper.
- Preliminary full version of the overview paper is desirable. If submitted, it enhances the chances of the proposal acceptance.

Proposals are due on or before February 10, 2008 and should be sent via email (in either *pdf* or *plain ascii text* form) to **Ahmet.Erdogan@ee.ed.ac.uk**. Proposals will be evaluated based on the timeliness of the topic, the qualifications of the organisers and the authors of the papers proposed in the session and the balance of the topics across the technical areas in AHS 2008. Authors of the papers included in successful proposals should submit a manuscript on or before February 28, 2008. Manuscripts should conform to the formatting and electronic submission guidelines of a regular AHS paper. They will be submitted via the online submission link and undergo peer review.

IMPORTANT DATES

Proposals for tutorials and special sessions	February 10, 2008
Special sessions paper submission deadline	February 28, 2008
Author notification	March 10, 2008
Camera ready manuscript deadline	March 20, 2008
Author/Early registration:	April 7, 2008
